Location: Susquehanna County, PA — Open to Remote Work

PROFESSIONAL SUMMARY

Dedicated, self-taught AI creator and problem-solver with a diverse background in operations, logistics, heavy equipment, technology, and leadership. Highly skilled in using AI to design tools, build apps, automate workflows, and guide others through complex technical projects. Fast learner with extreme focus and creativity. Seeking remote/hybrid roles in AI assistance, prompt engineering, tech support, automation, or AI operations.

AI & TECHNICAL SKILLS

• Prompt engineering & structured prompting

• AI-assisted app development

• Workflow automation & optimization

• AI content creation & refinement

• Debugging & technical troubleshooting with AI

• Business process optimization using AI

• Teaching and mentoring beginners in AI

Tools: ChatGPT, Claude, Gemini, Cursor AI, Canva, Google Workspace

PROJECTS & AI WORK

AI for Everyone — Learn, Build, Grow (2025)

Creator of a full 7-module AI educational program including templates, guides, covers, and structured learning systems. Built entirely using AI workflows.

SpiritFeed Android App (2024–2025)

AI-assisted developer of a multi-module ghost-hunting app published on Google Play. Built EVP, EMF, SLS, evidence tracking, and premium features using AI guidance for coding and debugging.

Published Author

Created multiple books and journals using AI for structure, editing, layout, and cover design. Experienced in KDP publishing and digital product creation.

AI Mentorship & Project System

Developed a $100 guided AI project system helping individuals create apps, automations, tools, and business workflows using AI.

PROFESSIONAL EXPERIENCE

CDL Class A Driver / Heavy Equipment Operator

Operated transport trucks, loaders, excavators, skid steers; hauled stone and materials; supported quarry operations and production management.

Supervisor & Operations Lead — FedEx (Contractor & Direct Hire)

Managed drivers, dispatch, logistics, routing, customer service, and operational workflows.
Trained new staff and optimized daily operations.

PennDOT — Equipment Operator / FD4

Seven years of state service operating roadwork and maintenance equipment; supported statewide transportation and safety initiatives.

Pipeline Welder's Helper

Assisted welders with measurements, pipe setup, grinding, safety compliance, and crew operations.

Warehouse / Food Distribution

Operated electric pallet jacks; performed high-accuracy order picking for large-scale distribution.

Stone Quarry Operator / Laborer

Operated saws, heavy machinery, performed laborer duties, and contributed to production flow.

EDUCATION

High School Diploma (Self-taught in AI development, automation, and digital systems)

ADDITIONAL STRENGTHS

• Extreme focus and problem-solving ability
• Strong communication and leadership
• Creative and technical adaptability
• Reliable, disciplined, and fast-learning

CAREER GOAL

To transition into AI-focused work such as AI operations, prompt engineering, automation support, AI assistant roles, tech support, or app prototyping while continuing to grow an independent AI service business.
